INTRODUCTION

The focus of this guide is to provide information about post-secondary funding opportunities to current and former youth in care, and it also includes various opportunities for Indigenous youth as well as scholarships and bursaries open to most, if not all, students. We are committed to resourcing and coaching youth to unlock their full potential.

Every effort has been made to provide up-to-date information within this guide. For current information on bursary/scholarship availability, eligibility requirements, and application deadlines, please contact the bursary program or organization directly. In the event there are errors, omissions, or additional awards that may be helpful to include in future editions, please email: jrichardson@yesmb.ca

This guide was first developed by Shirley Delorme Russell, an Indigenous woman and a former youth in care, who used her own experience of earning over \$50,000 in scholarships to create this guide to help future generations. Futures Forward would also like to thank the General Authority of Child and Family Services and the Louis Riel Institute for the initial development of this guide.

TIPS & TIMELINE FOR SUCCESS

Start your post-secondary planning 9-12 months in advance. The following timeline is meant to be used as a guide – please refer to funder, program, and institution-specific deadlines and requirements.

1. Research school and program options (September – December)

- Consider programs at various colleges and universities, attend information sessions and/or open houses, connect with recruitment staff
- Review admission requirements and prerequisites required; complete upgrading/required courses if applicable
 - **TIP:** Meet with Futures Forward staff for assistance with post-secondary planning!

2. Apply directly to the college/university of your choice (October – February)

- Submit application fee and necessary transcripts & documents
- If applying to university, apply before March 1 to be considered for entrance awards
- Note that many college programs are first-come, first-served to those who meet basic requirements
 - **TIP:** Apply early to avoid waitlists!

3. Apply for sponsorships, bursaries and scholarships (most deadlines range from January – June)

- Apply for a tuition waiver by Mar 31
- Apply for other opportunities such as band funding and other scholarships and bursaries
 - **TIP:** Schedule in 30 mins every two weeks to search for scholarships – treat it like a job!
 - **TIP:** Apply for at least five opportunities in your grade 12 year – this is the best time to apply!
- Apply for Manitoba Student Aid (MSA) mid-June, applications may take 4-6 weeks (about 1 and a half months) to process
 - **TIP:** Did you know that you are also considered for awards, grants and bursaries through your MSA application? This is a great back-up option.

4. Accept your Offer of Admission (~June)

- Pay program deposit, if applicable (most college programs require a deposit)
- Login to your online post-secondary application account, student email, and Manitoba Student Aid account regularly to check for updates
 - **TIP:** Ensure your email and mailing addresses are always kept current

5. Register for Courses & Prepare for Post-Secondary (~July)

- Meet with an Academic Advisor for assistance with course registration
- Connect with on campus resources such as Student Services, Accessibility Services, Indigenous Student Services, Counselling, Career Services, etc.

6. Pay your tuition fees & attend Orientation (September)

- Purchase your books and supplies 2-3 weeks before classes start
 - **TIP:** You can often find used textbooks online (like Amazon) for much cheaper than your school's bookstore; or you may want to join a used textbook group on Facebook.
- Get your post-secondary photo ID card
- Pay your tuition fees before the payment deadline
- Attend orientation to meet other students and get an introduction to post-secondary life before classes start

WAYS TO PAY FOR SCHOOL

Post-secondary education can be more affordable than most students think. **There are numerous scholarships, bursaries, tuition waivers, and other sponsorship options available. However, students lose many funding opportunities because they simply do not apply!** The only way to become a successful applicant to available funding is to do your homework. Seek out available funding opportunities and apply to as many of them as possible. Also pay attention to the stated deadline dates, review what information and documentation you need, and apply early.

These three terms all mean “free money”:

- **A Bursary** is usually given to a recipient based on demonstrated financial need and satisfactory academic progress.
- **A Scholarship** is given to a recipient primarily based on merit. This may include academic achievement, volunteering, or an essay.
- **An Award** usually involves multiple criteria such as academic achievement, demonstrated financial need, and community involvement.

There are five basic sources of money for school:

- **Sponsorship** (page 13) comes from an organization, such as a First Nation band, the Manitoba Metis Federation, or the Manitoba Government. Sponsorship may cover tuition, books and a living allowance, and does not have to be paid back. Some terms and conditions may apply such as maintaining certain grades and communicating course registration changes. It may vary according to student need, financial ability of the organization, and other criteria.
- **Student Loans** can come from the government or a financial institution, however the loan money must be paid back. Government Loans, available through Manitoba Student Aid (page 15), no longer accrue interest while you are studying or in the “repayment” phase. This means that your loan’s principal balance is only what you owe, but you must begin paying it back six months after finishing your studies. In comparison, bank loans or lines of credit have to be paid back through a regular schedule (even before you finish studying) and often come with high interest rates.
- **Internal Awards** are scholarships and bursaries that are only available to students at a particular post-secondary institution. To learn more, visit your school’s website and search financial aid and awards (page 49).
- **External Awards** are awards that are available outside your post-secondary institution. These awards are specific to students, not to schools, although in some cases they will only be for students at certain schools. Look for external awards information at your financial aid office, on scholarship databases, and more.
- **Part-time/summer employment:** Try and save at least 40% of each summer job paycheck towards school for the upcoming year. Open a bank account specifically for money for school and make a personal commitment not to use that money for other things. Save as much money as you can throughout the year before entering post-secondary. Once school starts, there may also be opportunities to work on campus, such as; student unions, housekeeping, catering services, teaching assistants, etc.

CANADA LEARNING BOND (CLB)

The Canada Learning Bond (CLB) is a financial incentive from the Government of Canada for post-secondary education, available to children and youth born in 2004 or later from low-moderate income families, as well as youth from care born in 2004 or later.

The maximum amount that can be received is \$2000, dependent on family income and/or time spent in care. No contribution is required.

The Canada Learning Bond can be used for any post-secondary costs, including tuition, room and board, technology costs, transportation costs, and more. It can also be used for any type of training, including degree or diploma programs, apprenticeship training, online or short-term programs, or post-high-school vocational programs.

There are several pathways that a youth can take to claim the Canada Learning Bond.

Under 18 and Not In Care

If you are under 18, you must have a bank account, birth certificate, and Social Insurance Number (SIN), and open an RESP with the help of your legal guardian. Your parents or guardians will provide their Social Insurance Number and valid Photo ID. They will open the RESP in your name and ask to claim the Canada Learning Bond. The money can be withdrawn once you are enrolled in post-secondary education, with proof of enrolment.

Under 18 and In Care

If you are under 18 and in care, you must have a bank account, birth certificate, and Social Insurance Number (SIN), and open an RESP with the help of your legal guardian. If you are in care, this means asking your CFS caseworker to help open the account.

Some youth in care may have had their agency open a RESP and claim the Canada Learning Bond for them. These funds should be transferred to you or otherwise made available to you when you age out.

Over 18 and Formerly In Care

If you are over 18 (but still born on or after January 1, 2004), you can open the Canada Learning Bond by yourself. You will require a bank account, valid Photo ID, and Social Insurance Number (SIN). You will call your bank and schedule a time to open an RESP and ask to apply for the Canada Learning Bond. You may require proof that you have been in care.

Over 18 and Not Formerly In Care

If you are over 18 (but still born on or after January 1, 2004), you can open the Canada Learning Bond by yourself. You will require a bank account, valid Photo ID, and Social Insurance Number (SIN). You will call your bank and schedule a time to open an RESP and ask to apply for the Canada Learning Bond. You have until the day before your 21st birthday to apply for the CLB.

Upon applying, please allow for several weeks for your application to be processed by the Canada Revenue Agency. Funds can be withdrawn upon proof of enrolment.
